Klang+Ton 06/2013
“Built into an open cabinet (Cheap Trick 269), this speaker provides features which are clearly above its price class and can clearly be considered high-end. Like all the other full range speakers of this design, it also needs a break-in period to demonstrate its full capability. After about 6 months, you wouldn't give this speaker back, not even for far more than you paid for it.”
