

STREAM

Order no.: 1000606

PRODUCT INFORMATION

Central audio/music streamer for Spottune speaker systems
Wireless audio/music streaming transmitter/receiver for streaming music, announcements etc. via the Spottune speaker system. Reliable radio connection thanks to digital audio broadcasting technology (DAB) in the frequency range of 1.8-1.9 GHz. Conveniently making announcements via the integrated microphone or with an external microphone via additional microphone input. Audio sources are fed to all speakers via AUX, MIC, USB or Ethernet connection as standard.

Spottune STREAM audio streamer

- Central transmitter and receiver unit (high operating reliability due to DECT technology)
- 2 music zones can be controlled individually
- Microphone input for announcements
- Web-based DSP and control surface
- Spotify Connect
- USB port for music reproduction
- Different music contents can be played in separate zones
- Status monitoring of integrated speakers
- Announcements via all speakers using microphone

Safety Notes and Warning Messages

The unit uses dangerous mains voltage. Leave servicing to skilled personnel only and do not insert anything into the air vents. Inexpert handling may result in electric shock.
Do not operate the unit and disconnect the mains plug from the socket immediately if the unit or the mains cable is visibly damaged; if a defect might have occurred after the unit was dropped or suffered a similar accident, if malfunctions occur. In any case, the unit must be repaired by skilled personnel.
The unit is suitable for indoor use only. Protect it against dripping water and splash water, high air humidity and heat (admissible ambient temperature range: 0 - 40 °C).
Never pull the mains cable to disconnect the mains plug from the socket, always seize the plug.
If the unit is to be put out of operation permanently, take it to a local recycling plant for a disposal which is not harmful to the environment.
